OPEN LETTER TO THE PRESIDENT, THE PRIME MINISTER AND THE PARLIAMENT OF ROMANIA

Mister President,

On December 18, 2006, on the basis of the Report elaborated by the Presidential Commission for the Analysis of the Communist Dictatorship in Romania, you have officially condemned this communist regime, declaring it as "illegitimate and criminal". This condemnation has been made "in the spirit of Resolution nr 1481 of the Parliament Assembly of the European Council from January 25, 2006". The communist regime made possible "the destruction of the free spirit, and the total manipulation of the subjects of the totalitarian state", being based on "the disregard for human rights, and for the law", it is said in the Report, and "His goal was the annihilation of the civic society, of the pluralistic political system, of free thinking, and of the free market".

The "Stefan Gheorghiu" party school had an important role in the formation of the communist cadres, being "the ideological conditioning and joining tool, a genuine seed bed of party cadres," the Report further states.

We consider the training cadres of the "Stefan Gheorghiu" party school to be instigators, both against the Romanians in Romania, and against the Romanians who, taking the road of exile during the period of communist dictatorship, have had the courage to fight outspokenly against this dictatorship, although they have received death threats, both they and their families, from the activists trained at the "Stefan Gheorghiu" party school.

Mister President, Mister Prime Minister, members of the Parliament,

Although the guilt of the training cadres at the "Stefan Gheorghiu" party school in training the former communist party cadres is known, some of them are currently ambassadors of Romania in countries around the world.

They have the same attitude of instigation against the Romanians in Romania, and especially against the Romanians in exile, who expose their activity as former communist trainers, activity which they now want to hide.

Such is the case with the ambassador of Romania to Sweden, Victoria Popescu, who considers nowadays that in Romania the communism was "a harmless trend". Moreover, Victoria Popescu, the representative of Romania in Sweden, not only hides her activity as a former indoctrinator from the "Stefan Gheorghiu" party school, but she tries to mislead both the Romanians and everybody in the country where she is an ambassador, that since December '89 she has not engaged in politics!

Mister President, Mister Prime Minister, members of the Parliament,

Start the cleansing of Romania from communism, and the condemnation of communism, through actions!

Remove these communist indoctrinators from their positions as ambassadors of Romania!

The former training cadres from the "Stefan Gheorghiu" party school cannot today represent a free, democrat Romania with a pluralistic political system.

They have been, they are, and they will be considered the exponents of the communist indoctrination!

Victoria Popescu cannot represent a free, non-communist Romania! She remains the former indoctrinator from the "Stefan Gheorghiu" party school and we consider that she must be removed from the position as an ambassador!
